Category
Self-referencing tree (MPTT). Bags → Handbags → Purse.

id	AutoField PK
parent	FK → self nullable FK
name	CharField
slug	SlugField unique UNIQ
icon	ImageField nullable
is_active	BooleanField
sort_order	PositiveIntegerField
lft / right / tree_id / level	(django-mptt fields)

Product
Core product sourced from China. Has variants (SKUs).

id	UUIDField PK
category	FK → Category FK
name	CharField
slug	SlugField unique UNIQ
description	TextField
source_url	URLField nullable
source_platform	CharField e.g. '1688','Alibaba'
base_cost	DecimalField
markup_percent	DecimalField default=30
is_active	BooleanField IDX
created_at	DateTimeField auto_now_add

ProductVariant
Each unique combination of size/color/type = 1 SKU.

id	UUIDField PK
product	FK → Product FK
sku	CharField unique UNIQ
size	CharField nullable
color	CharField nullable
extra_attrs	JSONField nullable
stock_quantity	IntegerField default=0
selling_price	DecimalField
weight_grams	PositiveIntegerField nullable

ProductImage
Multiple images per product. First image = thumbnail.

id	AutoField PK
product	FK → Product FK
image	ImageField
alt_text	CharField nullable
is_primary	BooleanField default=False
sort_order	PositiveSmallIntegerField

Wishlist
User saves products for later.

id	AutoField PK
user	FK → User FK
product	FK → Product FK
added_at	DateTimeField auto_now_add

Review
Buyer reviews after order delivered.

id	AutoField PK
user	FK → User FK
product	FK → Product FK
rating	PositiveSmallIntegerField (1-5)
body	TextField
is_approved	BooleanField
created_at	DateTimeField auto_now_add

Cart
One active cart per user (or session for guests).

id	UUIDField PK
user	FK → User nullable FK
session_key	CharField nullable
coupon	FK → Coupon nullable FK
created_at	DateTimeField auto_now_add
updated_at	DateTimeField auto_now

CartItem
Line item inside a cart.

id	AutoField PK
cart	FK → Cart FK
variant	FK → ProductVariant FK
quantity	PositiveIntegerField

Order
Placed order. Tracks full lifecycle from placed → delivered.

id	UUIDField PK
order_number	CharField unique UNIQ
user	FK → User FK
address	FK → Address FK
status	CharField choices=['pending','confirmed','processing','shipped','delivered','cancelled','refunded'] IDX
subtotal	DecimalField
discount_amount	DecimalField default=0
shipping_charge	DecimalField
total	DecimalField
coupon	FK → Coupon nullable FK
notes	TextField nullable
created_at	DateTimeField auto_now_add IDX

OrderItem
Snapshot of each product at purchase time.

id	AutoField PK
order	FK → Order FK
variant	FK → ProductVariant FK
product_name	CharField (snapshot)
sku	CharField (snapshot)
unit_price	DecimalField (snapshot)
quantity	PositiveIntegerField
line_total	DecimalField

Payment
Payment attempt/record. Supports bKash, Nagad, COD.

id	UUIDField PK
order	FK → Order FK
method	CharField choices=['bkash','nagad','rocket','card','cod']
status	CharField choices=['pending','success','failed','refunded'] IDX
transaction_id	CharField nullable
gateway_ref	CharField nullable
amount	DecimalField
paid_at	DateTimeField nullable

Coupon
Discount coupons. Supports flat & percentage.

id	AutoField PK
code	CharField unique UNIQ
discount_type	CharField choices=['flat','percent']
discount_value	DecimalField
min_order_amount	DecimalField nullable
max_uses	PositiveIntegerField nullable
used_count	PositiveIntegerField default=0
valid_from	DateField
valid_until	DateField
is_active	BooleanField

ShippingZone
Maps districts to a shipping charge. Dhaka vs outside.

id	AutoField PK
name	CharField
districts	JSONField (list of district names)
standard_charge	DecimalField
express_charge	DecimalField
free_above	DecimalField nullable

Shipment
Tracks the physical shipment via SkyShip or 3PL.

id	UUIDField PK
order	OneToOneField → Order FK
carrier	CharField e.g. 'SkyShip','Pathao','Steadfast'
tracking_number	CharField nullable
tracking_url	URLField nullable
shipped_at	DateTimeField nullable
estimated_delivery	DateField nullable
delivered_at	DateTimeField nullable
status	CharField choices=['pending','picked','in_transit','out_for_delivery','delivered','returned'] IDX

SupplierProduct
Maps an internal product to its China supplier listing.

id	AutoField PK
product	FK → Product FK
supplier_name	CharField
supplier_url	URLField
supplier_sku	CharField
cost_cny	DecimalField
cost_bdt	DecimalField
min_order_qty	PositiveIntegerField default=1
lead_days	PositiveSmallIntegerField
last_synced	DateTimeField nullable

PurchaseOrder
Internal PO raised to supplier on customer demand.

id	UUIDField PK
supplier_product	FK → SupplierProduct FK
order_item	FK → OrderItem nullable FK
quantity	PositiveIntegerField
total_cost_bdt	DecimalField
status	CharField choices=['draft','placed','confirmed','shipped_cn','customs','received']
placed_at	DateTimeField nullable
received_at	DateTimeField nullable

Banner
Homepage/category banners with optional CTA link.

id	AutoField PK
title	CharField
image_desktop	ImageField
image_mobile	ImageField
link_url	URLField nullable
placement	CharField choices=['homepage','category','flash']
sort_order	PositiveSmallIntegerField
is_active	BooleanField
valid_from / valid_until	DateTimeField nullable

SupportTicket
Customer support requests tied to an order.

id	AutoField PK
user	FK → User FK
order	FK → Order nullable FK
subject	CharField
message	TextField
status	CharField choices=['open','in_progress','resolved','closed']
created_at	DateTimeField auto_now_add
resolved_at	DateTimeField nullable
